

Antelope Valley Recycled Water Project

Fact Sheet

Organization Performing SEP	County Sanitation District Nos. 14 and 20 of Los Angeles
Description of Work Performed, Other Details	<p>The Project will consist of a system that will convey recycled water from the Palmdale, Lancaster and Rosamond water reclamation plants to reuse sites. A backbone pipeline system will connect the three treatment plants and a network of smaller pipelines will convey the water. Once completed, the project will consist of more than 200,000 linear feet of piping, three storage reservoirs and two main pump stations and two booster pump stations. This Project will benefit the environment and the community concurrently by enhancing reuse of recycled water, and relieving demand stress on groundwater and other potable water supplies.</p> <p>7/1/08- \$750,000 into SEP fund 7/1/09- \$750,000 into SEP fund 7/1/10- \$750,000 into SEP fund 7/1/11- \$750,000 into SEP fund 7/1/12- \$750,000 into SEP fund 7/1/13 \$750,000 into SEP fund</p>
